

The image is a collage of four distinct scenes, each representing a different area of security and defense. The top-left quadrant shows riot police in full protective gear, including helmets with visors and shields, amidst a crowd. The top-right quadrant features a firefighter in full turnout gear, including a helmet and oxygen tank, working in a fire. The bottom-left quadrant depicts three soldiers in full combat gear, including helmets and rifles, running through a muddy field. The bottom-right quadrant shows a close-up of a woman in a formal military uniform, including a peaked cap and ornate jacket with gold buttons and braiding. The word "FACIM" is superimposed in the center of the collage in a large, white, italicized sans-serif font.

FACIM

A comprehensive solution for your security
and defense equipment through a French
textile manufacturing chain

2025 edition

MANUFACTURE

INDUSTRIAL AND TECHNOLOGICAL PLATFORM FOR DEFENSE AND SECURITY EQUIPMENTS

Since 1871 the FACIM brings together the **French industry of textiles, clothes, shoes and equipments** and promotes their know-how dedicated to civil communities and military forces.
The FACIM embodies:

- ◆ A unique and dual model connecting **FACIM's textile trades** and **FACINNOV's technological bricks**.
- ◆ A level of **intelligence and advanced service** on uniforms and operational outfits market

OUR GOAL: TOTAL SECURITY

Proximity, Listening,
Confidentiality

OUR KEY WORDS:

Reactivity - Technical
Expertise - Prospective

THE TRADES

A dedicated network in all dimensions of specific know-how.
Domain expertise throughout the process (from yarns to clothes).

INNOVATE

THE MANUFACTURERS NETWORK OF "SMART TEXTILES" DEDICATED TO PUBLIC PROCUREMENT

Integration of technological solutions by a network of partnership companies and laboratories.

THE TECHNOLOGIES

The chemistry and physics of materials, nanotechnologies, connectivity, scanning... for personal protective equipment of the future.

THE ISSUES OF A COMPREHENSIVE SOLUTION

- ◆ **Protection:**
CBRN - bullet proof - camouflage - fire protection - anti wave radar.
- ◆ **Comfort – Ergonomics:**
Thermo regulation (cooling jacket) - weather breathability
load distribution - weight reduction.
- ◆ **Communication:**
Connectivity - data transfer - recognition - logistics.
- ◆ **Sustainable development:**
Resources savings - durability - recycling.
