

APLIX INNOVATIVE  
FASTENING SOLUTIONS

# FASTENING SOLUTIONS **FOR THE SECURITY MARKET**

**APLIX**  
Fastening the future

# APLIX HAS DEVELOPED INNOVATIVE HOOK & LOOP SOLUTIONS FOR SECURITY AND SAFETY APPAREL AND EQUIPMENT

**For many years, APLIX has worked in collaboration with the national armed forces and has spearheaded the development of innovative products to enhance the stealth and safety of soldiers, firefighters and policemen. APLIX has evolved through the design of safety and security apparel and equipment, which has undergone a range of major technical innovations.**

APLIX offers a range of fire retardant, anti-infrared and camouflage products that can be adapted to the requirements of the armed forces:

- Fast-closing
- Long cycle life
- Resistance to high-temperature washing
- Selvedges that maintain integrity when stitched

APLIX is already the supplier of several important Soldier Modernization Programs in European countries, USA and Brazil.

APLIX is able to provide the required certificates of conformity.

# OUR SPECIALIZED PRODUCTS

## Premium Hook & Loop closures

### aplix® 800 Hook & Loop and aplix® 803 Hook

## Injected plastic hooks

### Intermold®

- Patented one-step injection molding solution which allows the creation of hooks directly into plastic parts.
- No risk of delamination: it eliminates the need for adhesive backed hooks.

“ We reinvent for you, and with you,  
the fastening systems of the future to bring  
you comfort and simplicity. ”
